

Equipment Hire

ILP understand that equipment requirements need only be for a short period only. Whether the need is rehabilitation following surgery, or a visiting relative with poor mobility, Equipment Hire is a reasonable option.

You can choose from a range of lightweight wheelchairs, high back chairs, portable ramps or four wheeled walking aids. The minimum loan period is one week with a cost of just £15.00 per week or parts thereof. We do ask for a deposit, which is returned upon receipt of item in good condition.

If you are looking for a high back chair following a hip or knee operation, we will measure you, if you haven't been already. It is very important that you get the right height and depth of seat, otherwise you could damage the good work done!

If you are looking to hire any of the above items, contact ILP on 01743 250 820 We will need to know when you wish to take it, any appropriate measurements (if you have them) and when you are expecting to return it.
