

ILP can offer an Independence Consultation with either an Occupational Therapist or Trusted Assessor. You will be invited to visit either the Shrewsbury site or one of our many satellite centres throughout the county.

During the consultation, the assessor will discuss what you would like to achieve and agree on a solution to get there. It may be that you are entitled to a Direct Payment to buy an item of equipment to assist you to fulfil the tasks you want to do independently. This may be as small as chair raisers, to assist you getting in and out with little effort placed on your joints. It may be as large as battery bath lift, to assist you getting in and out of the bath.

The assessor can also advise on how some tasks may be achieved simply by doing something differently, not everyone likes the idea of having equipment in their home, our assessors will look at all aspects and work with you until a suitable solution has been found and agreed.

You will have the opportunity to try the equipment before it reaches your home, so you will be certain that it works for you and will be safe to use. If we don't have the item you require, we will do our best to get the item in so you may try before you buy.

ILP assessors will provide any information you require relating to your enquiry and provide a report detailing the consultation and the agreed solutions. You may wish to use this report to back up a housing adaptation request.

All ILP Assessors will work with you and aim to find the right solution for you and your home. We will advise where solutions are appropriate, but the final decision will be yours to choose what you prefer.

You can contact ILP directly, you do not need to get anyone else involved. contact our main office on 01743 250 820 to make an appointment at Shrewsbury or at a satellite centre near you:
